PROFESSIONAL SUMMARY

I am a front-end developer with a strong foundation in HTML, CSS, JavaScript, Bootstrap, Tailwind CSS and React.js. I have built several projects that showcase my ability to create clean, responsive, and user-friendly websites.

WORK EXPERIENCE

Front-End Developer (Self-Initiated Projects)

Jan 2025 – Present

- **HungryHub (Recipe Finder App):** Built a **responsive** recipe finder with **React**, **Tailwind CSS**, and **TheMealDB API**, featuring **search**, **category filters**, and **favorites with localStorage**.
- **News App:** Developed a news website using **React.js** and a public **news API** to display top headlines dynamically based on category and region.
- **Movies App:** Built a movie browsing application using **React.js** and a **movie API** (such as TMDb), featuring dynamic search, category filtering, and responsive UI.
- **Weather App:** Developed a weather app using **JavaScript** and the **OpenWeatherMap API** to fetch and display live weather data for any city.
- **To-Do List App:** Created a simple task management app using **HTML**, **CSS**, and **JavaScript**. Implemented add, delete, and mark-as-done functionality with dynamic **DOM** manipulation.
- **Digital Clock:** Built a live digital clock displaying real-time hours, minutes, and seconds using **JavaScript** and **CSS** for styling.
- **Calculator:** Designed a fully functional calculator with basic arithmetic operations using **HTML**, **CSS**, and **JavaScript**.
